

Quiz 08

Instructions: Answer the questions with precise definitions. Your definitions should either be stated exactly as in the lecture or textbook, or be clearly equivalent to them. Having the “right idea” but not a precise formulation will not receive credit.

Problem 1. Let X be a random variable. What is the **variance** of X ?

Problem 2. Complete the following definition: We say that a random variable T has a **t -distribution with ν degrees of freedom** if it can be written as...
